

Profile Summary

Name: Aniket Chandrakant Sonar

Email: aniketsonar7083@gmail.com

Phone No: 8862016664

Highest Education: Master of Computer Applications (Pursuing)

Pass Out Batch: 2027

College Name: KJEl's Trinity Academy of Engineering (TAE), Pune

Technical Skills

- **Basic:** Machine Learning, Artificial Intelligence Fundamentals
- **Intermediate:** C, C++, Java, Python, SQL, HTML, CSS, JavaScript, Node.js, Express.js, Flask, Object-Oriented Programming, Git & GitHub
- **Skilled:** React.js, MySQL, REST APIs, Tailwind CSS

Projects Details:

Project 1: Railway Delay Prediction System

1. **Project Details:**
Developed a Machine Learning-based Railway Delay Prediction System using React.js, Node.js, Express.js, XGBoost, and REST APIs to predict train delays with real-time tracking and analytics.
2. **Technical Skills/Languages Used:**
React.js, Node.js, Express.js, JavaScript, XGBoost, REST APIs
3. **Key Factor / Challenge:**
Finding reliable historical and real-time railway data to achieve accurate predictions and integrating both datasets into the application.

Project 2: Delivery Management System

1. **Project Details:**
Developed a Delivery Management System using Flask, MySQL, HTML, CSS, and JavaScript for package tracking, role-based login, and delivery status management.
2. **Technical Skills/Languages Used:**
Python, Flask, MySQL, HTML, CSS, JavaScript
3. **Key Factor / Challenge:**
Understanding the actual workflow and daily routine of Amazon delivery personnel to design a practical and user-friendly delivery management process.
